

The United States Official Investigation of baking powders, made under authority of Congress by the Chemical Division of the Department of Agriculture, Washington, D. C., recently completed, shows the Royal Baking Powder to be a cream of tartar powder of the highest quality, pure and wholesome, and superior to all others in strength, leavening power, and general usefulness. a29.

Bar silver 102.

The Bar Association met at Reno yesterday.

Geo. Gorham, Coiner of the S. F. Mint, went below last evening.

Sam Wright returned from below yesterday very much improved in health.

FOR SALE, two new sets of harness one single and one double at the office of K. C. Eldridge.

The gates of Tahoe are open, still the lake is rising. It is expected to rise two feet more before it falls.

Billy Rodgers of Elko, has located in this city and will act as Clerk of the Arlington. Good man for the place;

Charles E. Slingerland has received the appointment of Census Enumerator for Ormsby county. A better selection could not have been made.

A squad of eight or ten Indians from the fandango contingent gave a war dance exhibition at the baseball grounds yesterday afternoon. Although it attracted a large number of spectators it was a tame affair, the principal feature being the scantiness, or rather the absence of costume on the performers. Their attire consisted of a coat of striped paint and a narrow strip of muslin at the bicipital junction. It was scarcely more decent than the undress of a Washington Belle at a White House reception.—Times-Review.

Senator Stewart is making war on Major Power, of the Geological survey, charging that the money appropriated for surveying arid lands of the West has been misappropriated.

There were some alleged surveys made in this vicinity and it was notorious that the work was most slovenly performed.

Measurements of the flow of water in the various mountain streams were made. Last year was an unusually dry one and there was but little water to measure, and a false impression given as to their volume. There ought to be measurements made this year and then some approximate idea might be formed as to the amount of water which annually goes to waste.

WANTS YANKEE GORE.—Colonel M. A. Ferrer, a retired Mexican Army officer at San Diego, challenges Editor Smith of the Sun to fight a duel across the line, and he is not particular how it is fought. He wants to show the editor that his statement that a Mexican is "invincible in peace and invincible in war" is a base calumny on his country. Ferrer has written a letter to Mr. Smith which is not calculated to give aid to the bellicose Colonel's popularity.

THE SILVER CONVENTION.—The Opera House has been secured for the meeting of the Silver Convention to-day and it will be called to order by Hon. Tom Fitch. Yesterday the Ormsby delegation met, and having learned from Senator Williams that he could not possibly be present, elected Robert Logan of Empire in his place.

WHAT ON EARTH.—Is the reason people will not, cannot, or do not see any difference in cheap nostrums put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S BLOOD PURIFIER & BLOOD MAKER, and every bottle that does not do its work, will cost you nothing.—W. H. Chedie Druggist.

Mrs. Maude Stine has just received another new stock of millinery which will be disposed of at very low prices. Children's leg-horn and fancy straw hats a specialty. Ladies wanting stylish goods should call. m25

## A SAN FRANCISCO VIEW.

How Sagebrush Politics look from the Bay.

The following is from the Examiner of Tuesday.

"What about politics?" asked at Examiner reporter of a prominent Nevadan at a downtown hotel on Saturday. The gentleman referred to has lived in the Sagebrush State for many years, and has the reputation of being well posted.

"Well," he replied, "it is a little early in the day to give any definite information. The coming campaign promises to short and sweet. The Republican State Convention has been called to meet in Virginia City, September 4th. In all probability the Democrats will not hold theirs until a later date. A. S. Cleveland of White Pine county and T. B. Rickley of Carson are spoken of as available Republican candidates for gubernatorial honors. I was told in Reno, however, that certain prominent gentlemen had put their heads together with the result that our present Congressman, Bartine, will be nominated for Governor and F. G. Newlands for Congress.

"Theodore Winters' name is mentioned as a strong one to head the Democratic ticket, Hardin of Lyon county and Cassidy of Eureka are either of them good men to make the fight for congress. Yes, I believe Jones is desirous of serving another term in the Senate, and Tom Fitch, who is now a resident of Reno, is believed to be in the Senatorial fight.

"Cattle-owners are about beginning the spring rodeos, which will keep them busy for some weeks; and as the rise in silver, together with brightening prospects for the white metal, is increasing the confidence of mine-owners in their properties, our people generally don't devote much time at present to politics."

## How they Stand.

EDITOR APPEAL.—In response to your article as to how the delegates to the Silver Convention stand on the question of Free Coinage, I am for Unlimited Free Coinage.

GEO. W. CHEDIE.

After the above was received, Gen. Edwards and John Wagner were interviewed. They are for absolute free and unlimited coinage before everything. Gen. Clarke was not in the city, and Robert Logan, the newly elected member of Ormsby delegation, is vouched for as an unlimited coinage man by Senator Williams. The editor of the APPEAL is for unlimited coinage first, or—if that cannot be secured—any bill that will advance the price of silver.

POORLY PATRONIZED.—The Ball given by the Capital Band on Tuesday evening socially speaking was a decided success. The boys played faultlessly and were applauded after every piece of music redereed. Our town can now boast of having a good band and one of the prettiest uniformed bands in Nevada or even on the Coast. As the ball was gotten up for the purpose of raising funds to pay for these uniforms, the APPEAL is sorry to say that they were poorly patronized. We understand they netted only \$15.

ROLL OF HONOR.—Harry Frank, Rudolph Longabaugh, Chester Hope, Tom Kearney, Emmet Murphy, Joseph Stevens, Frank Jensen, John Hanifan, Fred Beer, Archie Maher, Willie Kearney, Leopold Miller, Mary Kearney, Annie Larson, Bessie Hope, Cecilia Sullivan, Grace Cahill, Celia Peters, Alice Woodbury, Alice Cahill, Ella Savers, Mamie Larson, Maggie Barrett, Emily Longabaugh Teacher.

## The Improvement of the Truckee River.

The annexed letter explains itself:

HOUSE OF REPRESENTATIVES,  
WASHINGTON, May 22, 1890.

Hon. C. C. Powning, Reno, Nev.:

MY DEAR SIR:—In reply to your letter concerning the Truckee river, I am sorry to have to say that nothing can be done for its improvement at this session (if at all) through the intervention of Congress. I have conferred with General Henderson, of Illinois, chairman of the Committee on Rivers and Harbors, and he assures me that there is not an appropriation in the bill for the improvement of a non-navigable stream; and further, that the Committee could not support an amendment for the improvement of any river without the report of an engineer, after official survey. The General would be very glad to favor us in this matter, but under the circumstances it is impossible. The departure, he says would be so radical that he never could either defend or carry the measure through the House. Of course a favorable report from a U. S. Surveyor, if such can be obtained, will give us a fighting chance at the next session. Very truly yours  
H. F. BARTINE.

## Why it was Omitted.

A part of Rev. Mr. Logan's address to the G. A. R. members, the manuscript of which was given to the APPEAL for publication, appeared yesterday morning in a very disjointed form, the best part of the discourse, say the hearers, having been omitted. All who heard the sermon agree that it was the best ever delivered in Carson on such an occasion.—Tribune.

Every portion of the address which appeared in the APPEAL was printed as it came from Mr. Logan's pen, and was not disjointed. Mr. Logan was requested to give the address to the APPEAL for publication, but it did not reach the office as early as was necessary. This being the case, he was requested to "boil it down" so as to fill two columns. After over three columns were set it was necessary to call a halt, as the hour was getting very late. About forty pages were left out in consequence, and possibly the portion left out was better than the portion left in. If so, it was certainly very good, as anybody reading the address will testify. To speak of it as "disjointed" is a slur on Rev. Logan not warranted by the facts. A more connected and well worded sermon has seldom been delivered in this State.

ONE THOUSAND.—The ladies having in charge the lunch and festival at Odd Fellows hall, May 30, are preparing a supply of good things for one thousand people. The bill of fare will consist of cold ham roast and corned beef, veal and tongue, hot baked beans and brown bread with pickles; cheese, salads, cake, strawberries, ice cream and lemonade. In short, nothing will be omitted that constitutes a first class lunch.
